

Tenley Kennett

US Citizen | Arlington, VA | tenleykennett.github.io

EDUCATION

B.S. Geography & B.S. Computer Science, James Madison University | Harrisonburg, VA

Spanish minor

Expected Graduation: **May 2027**

GPA: **3.98**, President's List (8 semesters)

Phi Beta Kappa, Member (2026)

Relevant Coursework: Earth Systems & Climate Change, Cartography & Geospatial Visualization, Software Engineering, Statistics, Databases

PROFESSIONAL EXPERIENCE

GIS Intern, Harrisonburg City Manager's Office

Jan 2026 – May 2026

- Building the city's first housing unit-level GIS layer by pulling data together from 4+ city departments
- Standardizing ~20,000 address and real estate records into a single, consistent dataset
- Building the foundation for Harrisonburg's first publicly accessible maps to show housing characteristics across the city

Lead Computer Science Ambassador, JMU

Aug 2025 – present

- Communicate technical concepts and program information to prospective students and families
- Lead outreach event planning and digital campaign execution with the CS Ambassador team
- Represent the CS program during tours, info sessions, and prospective student days

Study Abroad Operations Intern, JMU Center for Global Engagement

Feb 2024 – present

- Deliver data visualizations to support decision-making for over 200 program directors
- Build and run complex queries in TerraDotta (study abroad management software) to extract, filter, and organize program metrics

RELEVANT PROJECTS

NYPD Arrest Data Spatial Analysis, Geography Project

Fall 2025

- Analyzed NYPD arrest data to identify spatial and demographic patterns across New York City
- Created an interactive ArcGIS Story Map to visualize arrest trends and communicate findings

Virginia Flora & Fauna Database, Database Project

Spring 2025

- Implemented a full-stack database application modeling all native Virginia plant and animal species
- Modeled complex biological relationships into a PostgreSQL schema using dbdiagram

KilowBites, Software Engineering Project

Fall 2024

- Designed and implemented core classes for recipes, ingredients, and meals in a 5-person team
- Implemented 75+ JUnit tests ensuring 99% feature coverage and accurate metric calculations
- Participated in Agile sprints and code reviews, applying software engineering best practices

ACTIVITIES & LEADERSHIP

Workshop Leader, JMU madiSTEM

Mar 2026

- Led STEM outreach workshop teaching young girls 2D design software fundamentals

Public Relations Chair, Women in Technology

Nov 2025 – present

- Lead marketing and communications for Women in Technology's events

Cohort Leader, JMU madiSTEM

Mar 2024, Mar 2025

- Led a cohort of middle school girls at a JMU conference, facilitating hands-on STEM workshops
- Served as a mentor and point of contact for my cohort, ensuring a supportive learning environment

Track Leader, JMU DIGITAL

Nov 2023

- Mentored high school girls in hands-on app and web development, fostering interest in STEM

Member, Theta Tau: *Eta Zeta Chapter*

Sep 2023 – present

- Participant in weekend long professional development and leadership conference at GWU

SKILLS

Design & Mapping Tools: ArcGIS Pro, Adobe Creative Suite (Illustrator, Photoshop, After Effects), SPSS

Development Tools: Git/GitHub, Eclipse, VS Code, n8n

Languages: Python, Java, C, JavaScript, SQL, pgSQL, Ruby, Haskell, HTML

Practices: Agile (Scrum), Test-Driven Development, Object Oriented Programming

Productivity & Collaboration: Microsoft 365 (Excel, Word, Teams, Outlook, SharePoint)
