Tenley Kennett

US Citizen | Arlington, VA | tenleykennett.github.io

EDUCATION

Bachelor of Science in **Geography & Computer Science** *Expected May 2027*
James Madison University (JMU) - Harrisonburg, VA GPA: 3.98
Minor: Spanish
Relevant Coursework: Databases, Earth Systems & Climate Change, Cartography & Geospatial Visualization

SKILLS

Geospatial & Environmental: ArcGIS Pro, ArcGIS Online, ArcGIS Experience Builder, QGIS, Cartography, Geospatial Visualization, Spatial Analysis, NetCDF, Adobe Illustrator
Data & Technical: Python, SQL (PostgreSQL), Microsoft 365, Power BI, SharePoint, Git/GitHub
Relevant Knowledge & Methods: Earth Systems & Climate Change, Geographic Information Systems, Environmental Data, Database Management, Map Interpretation, Data Quality & Validation

TECHNICAL EXPERIENCE

Geospatial Data Intern, NASA Langley Research Center Hampton, VA | Jun 2026 – Aug 2026

- Developed an interactive ArcGIS application for exploring large ecological and atmospheric datasets, with filtering by biome, region, and environmental variables
- Built a Python workflow to convert TEMPO satellite netCDF data into ArcGIS-ready multidimensional formats, enabling a 3D voxel visualization of atmospheric data in ArcGIS Pro
- Designed a SharePoint hub and Power BI dashboard to organize user requirements and share project information across teams
- Nominated for NASA's "Shining Star" award, recognizing the top 10% of NASA interns

GIS Intern, Harrisonburg City Manager's Office Harrisonburg, VA | Jan 2026 – May 2026

- Built and maintained a geospatial database of ~20,000 real estate and address records, emphasizing spatial accuracy and data consistency
- Evaluated and digitized spatial boundaries across four city departments to develop the city's first unit-level GIS housing layer
- Reviewed and validated spatial information to ensure reliable data for downstream mapping and analysis

Study Abroad Operations Intern, JMU Harrisonburg, VA | Feb 2024 – present

- Build and run complex database queries to deliver data visualizations that support decision-making for 200+ program directors

RELEVANT PROJECTS

Virginia Flora & Fauna Database, Database Project Spring 2025

- Implemented a full-stack database application modeling all native Virginia plant and animal species
- Modeled complex biological relationships into a PostgreSQL schema using dbdiagram

NYPD Arrest Data Spatial Analysis, Geography Project Fall 2025

- Conducted spatial analysis on NYPD datasets to map geospatial arrest patterns across New York City
- Designed and published a publication-ready interactive ArcGIS StoryMap, using web cartography to communicate spatial trends and data-driven insights to a general audience

CAMPUS LEADERSHIP

Lead Computer Science Ambassador, JMU Aug 2025 – present

- Present technical concepts and program information to prospective students and families during tours, info sessions, and prospective student days
- Lead outreach event planning and digital campaign execution with the CS Ambassador team

Workshop & Cohort Leader, JMU madiSTEM Mar 2024 – Mar 2026

- Led STEM outreach workshop teaching young girls 2D design software fundamentals and STEM skills
- Led a cohort of middle school girls at a JMU conference, serving as mentor and point of contact to ensure a supportive learning environment
